

Creating a Test Event

Mark as Test Event

If an event is marked as a “Test Event”, then the Registrations and Sales will not count towards your totals in your reports.

The screenshot shows an event listing for "Latke Vodka" on a platform. The event image features a brick wall background with the text "LATKE VODKA" and "NOVEMBER 30, 2018". A red "CANCELED" banner is in the top left. A context menu is open over the image, listing actions: "Edit Event", "Clone Event", "Delete Event", "Unmark as Test" (highlighted), "Manage Event", and "Manage Attendees". Below the image, the event title is "Latke Vodka 15 COPY 3" and the organizer is "by Federation NEXTGen Detroit, Tired People Association, Test Organization (For Testing)". The date is "THU, MAR 21, 2058". Other details include "ROSH HASHANAH", "ALL AGES", "STARTING AT FREE", and "TEST EVENT" (in a red box). To the right, another event listing is partially visible with the title "Buyer name" and date "THU, APR 7, 2018".
