

Download Order Reports

Jlive makes it easy to download Order Reports for each event you host. Additionally you may download an Organization-wide Order Report that contains all orders across all of your events for a given time period.

Event-specific Order Reports

You can easily view the Orders on a particular event by clicking Manage Event and navigating to the Orders Page. In the top right corner is a button to download the CSV file.

Once on the Manage Orders Page for a specific event, you can click on the Download CSV button in the top right corner.

Note

The Orders Report does not include Registrant Question Responses. It only gives you details about the Buyer and the transactions.

The Registrant Report includes data on each person who registers, including the Question Responses.

To better understand how you can use these CSV files and view or manipulate them in Excel,

see [How to download a CSV file into Excel](#)

Daily Payouts to Bank

Jlive uses [Stripe](#) as our exclusive secure payment processor. Stripe aggregates Payouts to your Bank into a single **Daily Payout**. These Daily Payouts to your connected bank account are a lump sum of all revenue collected since the last payout, less any Stripe transaction fees. *The Stripe transaction fees 2.9% + 30 cents per transaction.*

The Orders Reports include transaction details as well as the Stripe Payout Expected Date and Stripe Date Paid for each transaction.

To learn all about Stripe Payouts and how you receive funds into your bank account, please visit the link below.

See: [View Payouts on Stripe](#)
