

Jlive Passport

Jewish communities worldwide are facing increased security threats. Events and facilities are being targeted by bad actors seeking to disrupt and cause harm. To mitigate these risks, we are pleased to announce the Jlive Passport. Jlive Users can quickly verify their identity with a mobile phone to obtain a single Jlive Passport granting them access to restricted events and programs from across the community. The Jlive Passport assures participating organizations that their registrants are who they say they are, thereby enhancing on-site security and comfort among attendees.

FAQ

Why is phone number verification important

Using a phone ensures that the user has a real phone with an account with a reputable phone carrier. Additionally Jlive can cross reference the account owner's information with the users information to confirm reliability. If necessary, Jlive could provide information to local authorities in certain situations.

How does it benefits users

Knowing that everyone at an event has been properly authenticated should bring peace of mind.

How does it benefit event organizers

Organizers can anticipate who is attending their events ahead of time and know that they are who they say they are.
