

Manage Promo Codes

It is now possible to Manage Event Promo Codes from the Promo Codes page in the left navigation.

The screenshot shows the Jilive interface for managing promo codes. On the left is a sidebar with a user profile for 'An Evening with Fauda TV star Lior Raz' and a list of navigation items: Event Dashboard, Registrants, Orders, Messages, Promo Codes (highlighted), Registration Questions, and Feedback. Below these are action buttons: PREVIEW, EDIT, CHANGE STATUS, and CANCEL EVENT. The main content area is titled 'Promo Codes' and features a 'CREATE CODE' button in the top right. Below the title are filters for 'All (203)', 'Discount Type', 'Discount Amount', and 'Status'. A table lists five promo codes with columns for Coupon Code, Discount, Total Used, Max Uses, Start Date, Expiration Date, Status, and Enabled/Disabled. The table data is as follows:
