

Order Processing Fees

Organizations can optionally add **Order Processing Fees** to their Paid Events from their Org Profile Settings. Here you can choose a fixed rate and/or a percentage fee as well as choose whether the processing fee also applies to Donations.

(Organizations receive 100% of these processing fees. They are meant to help you offset any credit processing fees charged by your [Payment Gateway](#).)

Processing Fees

This is an additional line item for you to offset the processing fees that you pay to your Payment Gateway. (Jliver doesn't receive these funds)
