

Pay Later / Pay Offline

Pay Later

Organizations can allow people to Pay Later and still checkout and get their tickets. No money will be collected during the checkout and the Order will be marked as Not Yet Paid.

On Create Event - Step 2 Tickets, Admins can enable offline payment.

The screenshot displays the 'Ticket Settings' interface. At the top, there is a green gear icon and the title 'Ticket Settings' with a subtitle 'Set Ticket Fees, Button Text and Promo code'. Below this, the 'Button Text' section asks 'What does the Call to Action button say?' and has a dropdown menu set to 'Sign-Up'. The 'Fee Options' section asks 'Who pays transaction fees?' and has a dropdown menu set to 'Host pays fees', with a note below stating 'Buyer doesn't see or pay fees'. The 'Promo code' section has a checkbox labeled 'Enable Promo Code to make event FREE.' which is currently unchecked. The 'Use 3rd party link' section has a checkbox labeled 'Enable people to get tickets on a 3rd party website.' which is also unchecked. At the bottom, the 'Offline Payment' section has a checkbox labeled 'Allow offline payment' which is unchecked, with a note below stating 'People can checkout, register and get tickets without making immediate payment'. A black rectangular box highlights the 'Offline Payment' section.

Ticket Settings
Set Ticket Fees, Button Text and Promo code

Button Text
