

Sending emails from your @Jlive.app address

If you work for Jlive and have an @jlive.app email address, here are some steps to enable your email to be @jlive.app.

If you use Gmail

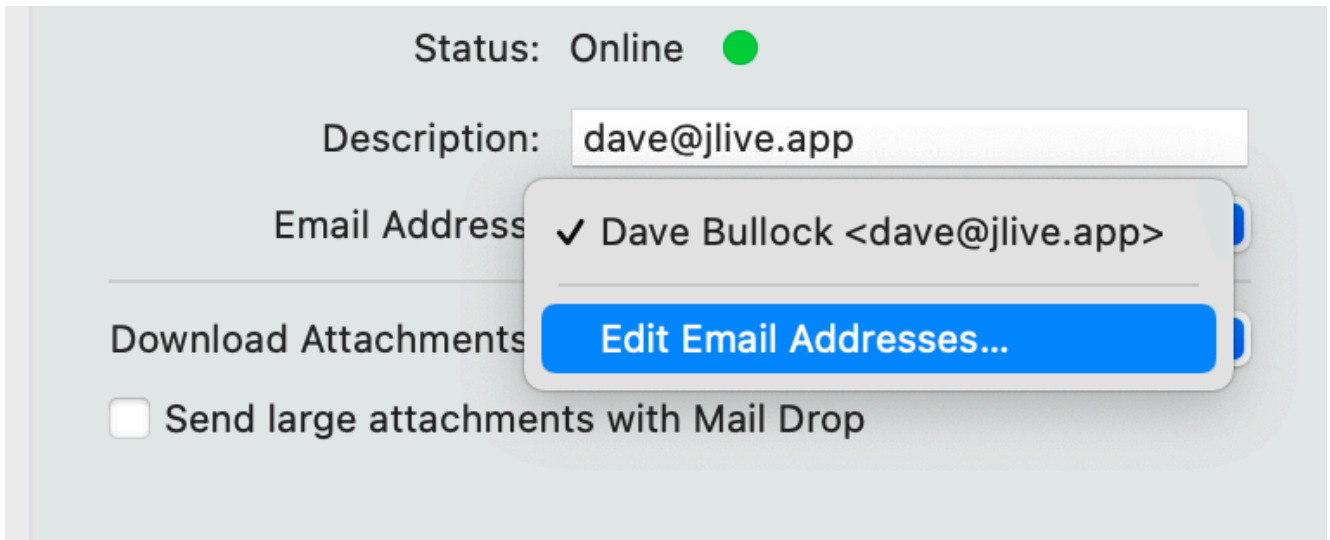

1. Go to **Settings / Accounts / Send Mail As**
2. Click **Add another email address**.
3. Add your email@jlive.app
4. Click “**make default**”

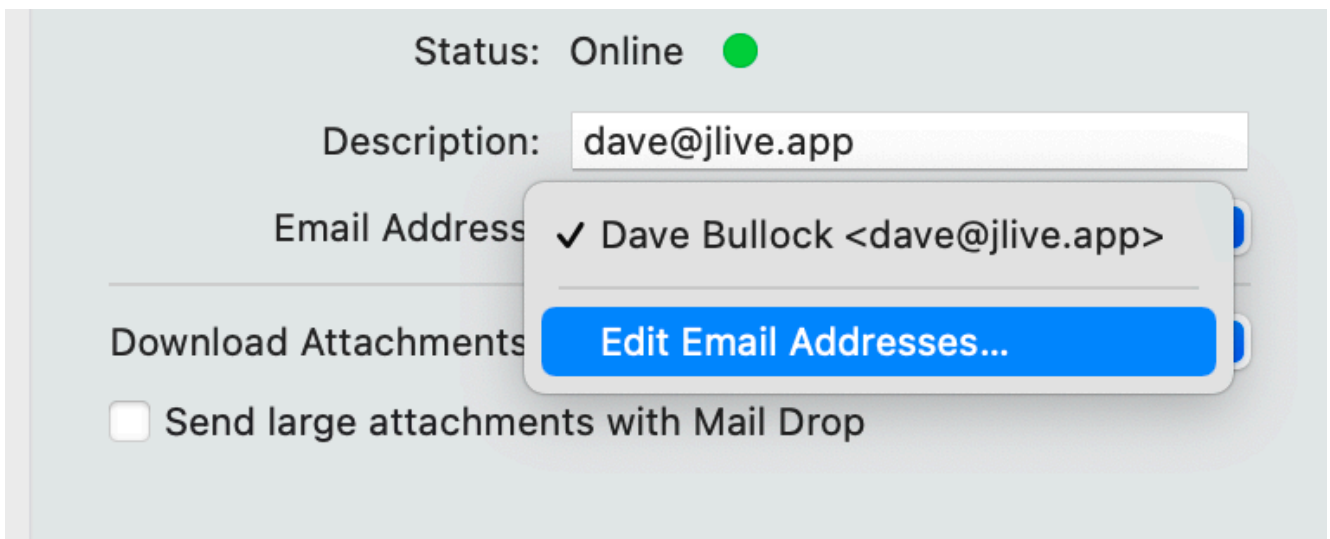

If you use Outlook for Mac

<https://support.microsoft.com/en-us/office/send-email-from-a-different-address-in-outlook-com-ccba89cb-141c-4a36-8c56-6d16a8556d2e>

- 1) Mail > Preferences > Accounts > Select Jlive Account
- 2) Pull down Email Address field and select “Edit Email Addresses”

3) Edit the domain to jlive.app and click OK

On iOS:

- 1) Open Settings > Mail > Accounts > Tap on the Jlife account (may just be called Gmail)
- 2) Tap on your email address
- 3) Edit the email field to use the jlive.app domain
- 4) Tap Done
